

# RS PRO BOTTLE XS

*Big on Customization, Small in Size*

***RS Pro, transfer your image!***

# Compact. Creative. Commercially smart.

Bring your bottles to life with the RS Pro Bottle XS – the compact powerhouse for professional printing on cylindrical objects such as bottles, tumblers, tubes, and more. With its smart design and high-performance output, this printer is perfect for those who want to personalize big in a small space.

- ✓ **Fits almost all cylindrical shapes** – like stainless steel, ceramics, metal, and non-transparent plastics
- ✓ **Brilliant colors to ensure luxurious appearance** – by combining white and CMYK with varnish
- ✓ **Compact & user-friendly** – fits easily on any desk or workspace
- ✓ **Vivid, lasting colors** – UV printing technology for durable, scratch-resistant results
- ✓ **Ideal for small runs and custom jobs** – print directly without pre-treatment

Whether you run an online shop, create corporate gifts, or want your brand to shine on bottles – the RS Pro Bottle XS delivers personal and professional results.
